The Academy for Musical Theatre Mission ~ We will foster an environment of growth, personal freedom, and understanding. The Academy workshop space will be an environment where new ideas and emotions may be experimented with and expressed in creative ways without fear of negative feedback or scorn by peers. We will support each other in our creative endeavours and strive to be both accepting and understanding of ideas and emotions that are unlike our own. There is no right and wrong here -- only discovery! And most of all, have fun!
